To the Editor of The Tribune: As a close observer of the various traits of character in the human family, I have frequently had oceasion to remark that the gentler sex, so called, are far less courteous to their own sex, than are gentlemen to theirs. Especially is this true when they meet a stranger, either in the drawing-room or on the public highway. Allow me to state a single fact by way of corroborating this assertion. A

very benevolent and highly respectable lady residing in Park-place, recently called upon a lady ocsupying an elegant mansion on a street not far distant from her own residence, for the purpose of soliciting alms for a descitute family. After stating the subject of her call, and the condition of those she was endeavoring to relieve, the bare recital of which was enough (one would suppose) to move any other than a breast of stone, she was coolly repulsed with the reply, that "there are so many impostors, we don't know when to give." The solicitor then gave her own address, accompanied with the ramark, that as she was a stranger she would not asked to be trusted with the funds, but would furnished her with the number and street of the hovel of the pitiable objects, (one a female with a cancer upon one of her eyes,) whose deplorable situation had been faithfully depicted, in order that she might visit them in person, or send them what she chose. But to this suggestion the reply was, you had better employ yourself in better business.

For the honor of human nature it is to be hoped that there are not many instances of such rudeness, or frequent exhibition of such heartlessness among women. Yours truly,

We learn by the Lansingburgh Gazette that during the past season no less than eight thousand two hundred and sixteen head of cattle have been slaughtered and packed in that place by Chauncey P. Ives, Esq. Mr. Ives' es. tablishment is the most extensive in the United States, employing from seventy-five to one hundred hands. The slaughtering season commences about the first of October, and continues till late in November. During this period about 400 bullocks a day are slaughtered whenever a press of business requires despatch. The average, we believe, is about 300 a day, This establishment not only adds much to the business and enterprise of Lansingburgh, but its influence extends throughout the whole grazing country of northern New-York, affording a ready and convenient market for the vast number of cattle which were formerly driven to Montreal.

R. M. RIDDLE, Esq., P. M. of Pittsburg, has obtained a verdict of \$400 against Neville B. Craig, Esq., late Editor of the Gazette, for a libel published in that paper.

A CAPITAL HIT .- A Whig County Convention recently held in Illinois, passed the follwing reso-

Resolved, That we approve of Gen. Jackson's declaration, contained in his veto message of 1832, that a " National Bank is convenient to the Government and useful to the people, and might be so constituted as to obviate constitutional objections.'

CAT STORY .- Some three or four weeks since a favorite cut on Clinton street, upon the death of one of the family, became cross and turbulentfor which some boys were directed to throw it over the falls. Accordingly they proceeded to the railroad bridge and opened the mouth of the bag in which he had been conveyed to the place, and out jumps pussy into the river, and by the rapid current was carried over the falls; the boys returned, supposing, of course, to have made a finish of Grimalkin. But about ten days after this occurrence, pussy having outleaped Sam Patch, returned to her former place of residence, considerably emaciated, to claim further protection, which has been kindly tendered, and his catchip remains very peaceable and kind.

IF A couple of foreigners, who had never enjoyed the pleasure of a sleigh-ride, decided to indulge in that amusement, while sojourning at the Tremont House, a while ago. A sleigh was ordered, accordingly, and they were asked if they would have one or two buffaloes? "Why," said one of them, very innocently, "as we are not used to this sport, I think one buffalo will be as much as we can manage unless they be very Boston Post. FIRES .- The cotton mill at Locustville, R. I.,

REARING APPLE TREES .- A gentleman in Bohemia, has established a beautiful plantation of the best sort of apple trees, which have neither sprung from the seeds nor from grafting. His plan is to take shoots from the choicest sorts, insert each of them into a potato, and plunge both into the ground, leaving but an inch or two of the shoots whilst it pushes out roots, and the shoot gradually springs up and becomes a beautiful tree, tearing the best of fruit, without requiring to be grafted.

A FAITHLESS SERVANT .- A youth about eighteen years of age, named Leonard Munson, lately in the employ of T. S. Stooks, the proprietor of the Brooklyn Shades, No. 15 Hicks-street, absconded from his employer yesterday morning, having rob. bed him of bank bills of the city of New-York, amounting to \$400, and \$50 in gold.

SUICIDES .- Chauncy Stebbins, of Hopkinton, N. H., hung himself on Saturday last, and Edward Cox of Memphis, Ten., drowned himself on the 2d inst. Each committed the fatal act under the influence of rum. Mr. Ira Jacobs, of Chickopee Falls, Mass., committed suicide by hanging on Thursday

Commercial Matters.

The article of Coal is one of much importance to this city, and every one is interested in any movement in the coal region which tends to make it cheaper or dearer. During the last season we had anthracite coal very cheap here, and such was the competition among the transportation compa-nies in the mining districts that most of the dealers, especially in the neighborhood of Pottsville, sustained an actual loss on the whole year's business. The following statement, made by the Minera' Journal, shows the exact cost of delivering coal in New-York, and will put purchasers somewhat on their

guard against swindiers:
Fom Pottsvile to New-York—By Railroad. Coal in Cars
Cost per ton
Coal in Boat

Coal in boat \$2 25 Freight 1 19 Toil on Lehigh 40 Delaware Division 33 Toil and tonnage on Delaware and Raritan 69

As the Lehigh Company receive their scrip, which is at least 25 per cent. below par, in payment for coal and toll, and pay half the freight in scrip, there must be deducted from the above......

Lost year large quantities of coal were delivered in New York from the Mauch Chunk region at four dollars per ton The agents from the Lehigh are now offering to deliver coal on board vessels at Bristol at \$3 per ton. The Journal says, Coal cannot be delivered on board of vessels at Philadelphia

from this region at that price without a loss." The report of the Madison County Bank gives, Loans \$144,000; Circulation \$143,926; Deposits \$26,866; Specie \$7,995; Bank Notes, &c \$5,525; Bank Balances Cr. \$88 829; New-York Stock \$20,000.

The Nashua Bank is the only one in New-Hampshire to which the personal liability law now applies. Its stock now commands an advance of 17 per cent, in the market. The bill providing more effectually for the collecion of the direct taxes has passed the House of Delegates of

Maryland by a vote of 44 to 35.

The Treasurer of Maryland in his Answer to inquiries of the Legislature, says that the amount of interest now due on the State debt, over and above the money in the Treasury to meet it, is \$1,129,459 94, and would require a tax of sixty cents and it, is \$1,129,459 94, and would require a tax of sixty cents and five-hundredths on the hundred dollars of the assessable property of the State to pay it at once. "But," remarks the Tressurer, "as the object of the order is to let the people of the State know, precisely as may be, the amount of their indebtedness, the Treasurer feels himself called upon to inform them that there remains due to the State, and applicable to the payment of this debt, from the levies of 1841, 42 and 43, the sum of \$625,237.70, which, when paid, will reduce the debt to the sam of \$503,532.24; and this is in truth the amount which is required to be provided for, and would be discharged by a tax for one year of twenty-six cents and two-thirds, additional to the tax already levisd.

"This disposed of would leave the sum of \$626,821 16 to be annually raised, and a tax of 33s cents on the hundred dollars of the assessable property of the State, would meet this demand, even without and from any other of the sources of revenue, which have been or may be provided."

I was daily sinking under the virulence of a disease, the symptom of which were daily becoming more aggravated. I accordingly went to Ohio in Sebmary, 1837, where I had every attention a fond wife and able medical advise a could furnish. I found no benefit by a change of climate, and continued gradually to decline, with aggravated symptoms; and thus I continued to linger out a miserable exis-tence for the greater part of four years, more than half the time confined to my bed and room, incapable all the time of doing business, and unable from my disease for six weeks to take any refreshment except sour milk. NOTICE—Sufficient is it in answer to the advertisement that appears to the contrary, that we not only have the Tools of John Conger, 33 Attorney-street, New-York, for sale as here advertised, but we also have the genuine warganyers Cast Steel John P. Conger's, which we warrant in all respects equal, if not superior, to John Conger's.

And as the said John Conger has manifested so much feeling in relation to our selling Tools that are not his make, we deem it but justice, for the information of the public, to say that the said John Conger learned his trade with the lather of said John P. Conger. And as for proof of the quality of the Tools made by John P. Conwer, we have abundance; and they do not require the name of John Conger, 33 Attorney-street, to make them saleable.

In addition to the above, masmuch as John Conger has by a fate advertisement, and in contradiction of our own advertisement, and in the not necessary for us here, where we are known, to pronounce the assertion a direct and positive falsehood, if not a wriful and deliberate one, and which we are fully prepared to substantiate; yet lest those not acquainted with us might be deceived or misled, we feel ourselves called upon to do so; and further say that we not only have them, but we shall continue to keep his said Conger's Tools so long as there shall be a demand for them and they are for sale in the market.
